Work Experience

Tech Mahindra |Senior Software Engineer

May 2023 – Feb 2026| Hyderabad

Feb 2026 – Present | Johannesburg, South Africa (Onsite Assignment)

- AWS automation & infrastructure management for scalable, stable environments.
- Managed Apigee OPDK/API Gateway deployments and production support.
- Automated infrastructure and operational tasks using Terraform, Ansible, and Shell scripting.
- Built CI/CD pipelines using GitLab/Jenkins for microservices, Drupal, and Apigee deployments.
- Administered OpenShift clusters and automated deployments using Terraform, Ansible, and Shell scripting.
- Implemented monitoring using Prometheus, Grafana, ELK, and custom cron-based scripts.
- Supported production releases and ensured 99.9% system uptime.

Certification

- CKA – Certified Kubernetes Administrator
- AWS Solutions Architect – Associate
- AWS SysOps Administrator – Associate
- Red Hat Certified System Administrator
- Red Hat Certified Specialist – OpenShift
- Introduction to Generative AI (Google)

MKS Vision | Software Engineer

Sep 2022 - May 2023 | Hyderabad

- Installed & configured OpenShift clusters on VMware vCloud using Ansible.
- Configured DNS, LDAP, and resolved OpenShift installation issues.
- Created BuildConfig, DeploymentConfig, Services, and Routes for applications.
- Worked on incident resolution, log analysis, performance tuning & platform enhancements.
- Managed Kafka, 3scale, Jenkins, AWS, Dynatrace, Kasten K10, vSphere & RHEL systems.
- Automated operational tasks using Shell scripting and Ansible.

Pro-Vigil Surveillance Services | DevOps Engineer

Oct 2021 - Sep 2022 | Hyderabad

- Maintained 24x7 Linux infrastructure ensuring high availability and system stability.
- Automated tasks using Shell scripting & Ansible.
- Deployed workloads on Kubernetes, AWS ECS, Fargate, and Docker.
- Implemented monitoring via Prometheus & Grafana, including performance tuning and fault analysis.
- Performed system upgrades, patches, hotfixes, and capacity planning.
- Supported NAS systems, networking, and Odroid edge devices.
- Collaborated with development teams for incident management and deployment improvements.

Pro-Vigil Surveillance Services | Technical Support Specialist

Nov 2020 - Oct 2021 | Visakhapatnam

- Provided Linux troubleshooting and device connectivity support.
- Resolved NAS and network-related issues.
- Created shell scripts to automate repetitive tasks.

Cyberphoton | Sr. Technical Assistance

Feb 2019 - Oct 2020 | Hyderabad

- Provided Linux server administration, application deployment support, and system monitoring.
- Performed network troubleshooting, performance checks, and issue resolution.
- Automated routine operational tasks using Shell scripting to improve efficiency.
- Supported users and internal teams across infrastructure and system-related issues.

Concentrix Daksh Services | TSA

Nov 2016 - Nov 2017 | Hyderabad

- Delivered technical support for system, software, and network-related issues.
- Assisted customers in troubleshooting device and connectivity problems.
- Documented issues, escalated critical cases, and ensured timely resolution.
- Maintained high-quality service standards and customer satisfaction.
